Letter to Dr. H. D. Lilliston, Accomac, Va.

Dear Sir: A gallon saved is \$4 or \$5 earned. Devoe saves 2 or 3 gallons in 10. How much is it worth a gallon? A gallon saved saves the painting too; and both together cost \$4 or \$5—\$4 where labor is cheap; \$5 where labor is dear.

Our agents in Bridgeport, Conn., Hubbell & Wade Co., tell us: "There are a great many workmen's houses here. They used to paint lead-and-oil and take ten gallons. We have been selling them ten gallons Devoe lead-and-zinc, and have had, in every instance, two gallons returned." The proportion is often higher than that; we have known it five in ten; but that is exceptional.

This is the explanation: Devoe is ground by machinery, and is ground fine: lead-and-oil is mixed by hand, and isn't ground at all.

Yours truly, F. W. Devoe & Co.

Ladies: How about your spring cleaning? Do you need matting or a beautiful fiber art square, if so we are headquarters.
